# ACT *for* Cincy

Achieving Change Together  
Blueprint for Violence Reduction

➤ [www.cincinnati-oh.gov/manager/act](http://www.cincinnati-oh.gov/manager/act)

# ACT for Cincy Overview

**ACT for Cincy** is Cincinnati's collaborative, community-driven strategy to prevent violence—especially gun violence—by addressing its root causes through a public health approach. While violent crime is declining overall, gun violence remains a serious challenge. Led by the City Manager's Office and built in partnership with **residents, City departments, community organizations**, and the **Cincinnati Children's Hospital's Michael Fisher Child Health Equity Center**, ACT for Cincy focuses on long-term, sustainable safety by addressing root causes and aligning efforts across neighborhoods and sectors.

This strategy brings together years of ongoing work into a unified approach—so individuals and organizations can row in the same direction toward real change. It is grounded in five strategic pillars identified by the community: **Thriving Neighborhoods, Reducing Youth Access to Firearms, Improved Wellbeing, Youth Support, and Policing Innovations**. Each pillar is powered by action teams, targeting specific components, with identified goals and measurable outcomes. This strategy guides the City's ongoing funding of efforts to address violence.

ACT for Cincy is **data-centered**, with a goal of reducing gun violence by 10% in its first year and using shared data to track progress. This is how Cincinnati is achieving change—**grounded in community, guided by data, and powered by collaboration**.
