Motion

Our police officers experience countless traumas in their line of work. While the Cincinnati Police Department (CPD) is working to develop a better and more comprehensive Officer Mental Health and Wellness Program, they are lacking the funding. WE MOVE that the city administration includes \$125,000 of the operating budget to establish an Officer Health and Wellness program within the CPD.

Statement

CPD has taken many steps to develop a better Health and Wellness Program within the department including research about department needs and research into the steps taken by other departments across the United States. CPD would benefit from having a dedicated Officer Mental Health and Wellness program in order to be more productive and develop better overall health and wellness solutions. Receiving \$125,000 would assist in the funding of this program and help promote overall wellness for Law Enforcement Officers.
