## MOTION

WE MOVE that the Administration REPORT on a viable source of funding for the \$300,000 needed for the Department of Transportation and Engineering to install a high friction surface at the curve in the road near the 2200 block of Harrison Avenue in June 2022.

## STATEMENT

The 2200 block of Harrison Avenue has experienced an increase in traffic accidents at the bend of the road. Over the last decade, a nearby property owner stated her property has sustained \$10,000 in damage from traffic crashes. The Department of Transportation & Engineering has suggested that high-friction pavement would decrease the number of crashes in this area. The estimated cost of the high-friction pavement would cost \$300,000.
