MOTION

To Quantify the Success of our Current District TIFs

WE MOVE that the Administration provide a report within forty-five (45) days establishing a metric for success of our currently established TIF districts. This metric should take into account the revenue generated by each district, how long they have existed, how large they are, how much time remains until they need to be renewed, and projected growth in the districts.

WE FURTHER MOVE that the Administration use this metric to rank the currently established TIF districts from most to least successful and a recommendation on criteria for determining whether or not to end or not renew an existing TIF.
