2019

After great 2019

2020: THAT year... very bad, terrible, horrible, no good year...

2020

2020 will also be remembered as the year people's generosity and caring came to the forefront as neighbors helped neighbors and communities helped communities.

2021

2021? What will emerge from both the wreckage and the generosity of 2020?
