The Need- Teenage Girls Are At Risk

- There are so many girls who are dealing with personal, family, and even legal issues that can really de-rail their future. These problems of today do not need to become problems that impact their long-term future, their personal identity, and the achievement of their goals.
 - Lack of Work Readiness
 - Poor Social Skills
 - Both Gender and Race Discrimination
 - Basic Academic Performance - Reading, Math, STEM
 - Teenage Pregnancy and Single Motherhood
 - Exposure to drug use, gang and other social pressures

What We Do...

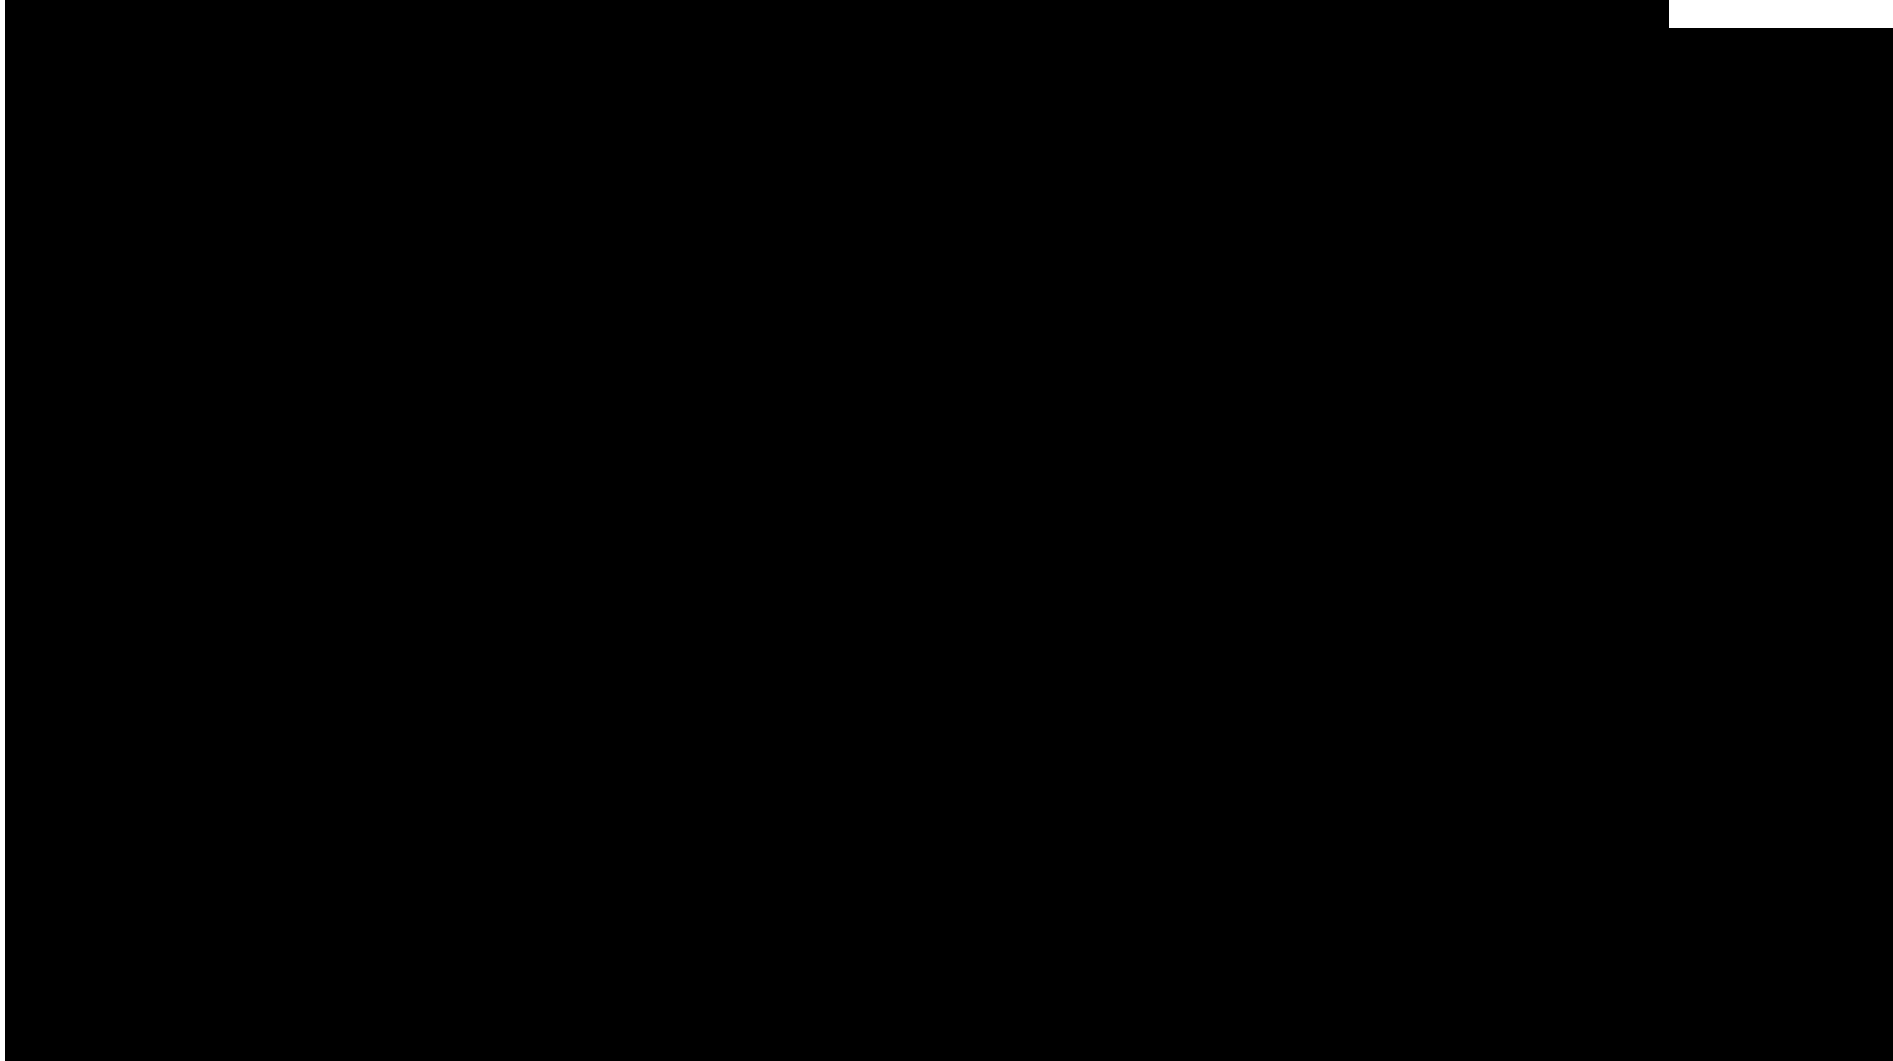

- **We offer girls a sanctuary filled with positive experiences, academic assistance programs, mentors and volunteers who care about their future.**
- **We offer a place where counselors can help them. They can learn how to improve their situation and become the person that they wish to become.**

How You Have Helped Us to Achieve Our Mission

- We are a small charity, low budget with limited resources
- COVID decimated our programs and our funding. We lost connections with the Girls at the time they needed us the most.
- We have used the funding provided to:
 - Hire Assistants in the classrooms, Professional Tutors, Contract with Counselors.
 - Purchase educational supplies like instruments, mannequins, sewing machines, art supplies, Food for healthy dinners and snacks, school supplies.
 - Reimburse volunteers for Transportation of the girls to/from our programs
 - Become an approved provider to Hamilton County Juvenile Court for the remediation programs, events, and services that we offer.
