MOTION

WE MOVE that City should build medians and other traffic calming infrastructure ONLY if provision is made for the long-term maintenance needs and costs.

We further move that the City provides a report and a maintenance master plan for all such amenities created in the past. The report should include a strategy for taking care of the maintenance. The strategy should include potential redesigns funded through capital funds, to enhance the maintainability of these features.

Councilmember David Mann

Statement:

Even before "Traffic Calming" was an idea in everyone's mind, and mainly for beautification and gateway enhancement purposes, the City built many traffic islands. Too often, the assumption was that volunteers would take care of the maintenance, and if not, the Department of Public Services (DPS) "somehow" would become the caretaker. As a result, DPS has now over 500 of these areas, including about 250 islands, with a budget to care for only 10% of these "Greenspaces". What was to be beautification and gateway enhancements have often become eyesores. Communities struggle with meager funds and sporadic volunteer help. The cost of adequate maintenance is often beyond the total budget of these communities.

David S. Mann
Councilmember

Most of the time these areas were not designed properly with shallow depth of poor soil, dreadful subsurface that prevents proper drainage and lack of watering options. In addition, by their own nature, traffic islands are in the middle of traffic, making maintenance by volunteers, without safety gears (vest, cones,...) a very hazardous activity.

Now that these areas are “popping up” all over the City, under worthy and important Traffic Calming initiatives, it is important that each new project include:

- 1- Careful design, created for maintainability
- 2- Funds set aside for ongoing maintenance, funds that are not later eliminated or reduced to compensate for budget shortfalls.

It is also essential to correct past errors by:

- 3- Evaluating existing traffic Islands and medians
- 4- Creating a strategy to provide sufficient funding for what we have now.
- 5- If maintenance funding is not possible, the City should allocate capital funding to correct the design (including installing pavers or pavement in lieu of landscaping and water systems)

Attached is a partial list of medians (as of 2015) to convey the magnitude of the issue. The list does not include other greenspaces and gateways.

Also, pictures added to provide a visual of the problem.
