# City of Cincinnati

## STATEMENT

The American Rescue Plan was enacted to restore our cities, our communities, and our businesses. Following this guiding principle, the City of Cincinnati has prioritized the City's fiscal health, allocating the millions of dollars needed to seal the budgetary deficit, ensuring that basic services are provided, and the needs of our citizens are met. With this framework in mind, we have closely aligned subsequent allocations of ARPA dollars with these objectives. From investment in our City's neighborhoods and youth, to finally bringing community safety projects forward, our proposal reflects the needs of our community. We have engaged the community through several avenues, including holding a Town Hall, in which every Community Council was invited to participate. Through phone calls, emails, meetings, and direct public engagement, we have identified and funded the priorities of our community. The requests of the community included: affordable housing and anti-displacement, support for arts and culture, safe and thriving neighborhoods, support for small and minority-owned businesses, and of course, jobs and services for our youth.

### Investing in our Neighborhoods

In this plan, neighborhood Community Councils will receive \$10,000 each to replenish lost revenue from cancelled events and to relieve already strained budgets. This investment in our Community Councils will enable events, organization, mobilization, and pay for ordinary needs of our Councils, all of which are comprised of volunteers in unpaid positions. We have also outlined \$3 million dollars to fully fund Vision Zero, a community-driven initiative that reflects the requests and needs of our neighbors. These projects have been submitted to City Administration and have been vetted fully by the Department of Transportation & Engineering. We are also investing in our communities that need the most assistance, including Roselawn and Bond Hill, by providing funds for a Community Organizer. Additionally, we have fully funded the HARBOR program, an initiative to keep families in their homes by assisting with required work. By investing \$2 million dollars into the HARBOR fund, we can ensure that homeowners, whether low-income or on a fixed income, stay in their homes and have a safe place to live.

### Investing in our Youth

Investing in our City's youth is one of the most valuable investments we can make. With the addition of \$1 million dollars to the City's Youth2 Work program, we are betting on the future by investing in our young folks and providing much-needed employment to our community's teens and young adults. Childcare debt is a crushing weight in our community. By partnering with 4C for Children, we created and funded a debt-relief program for parents who continued to work throughout the pandemic and relied on childcare services. Childcare services are often woman-owned and are a source of income for many entrepreneurs, especially women of color. The inability to pay for childcare is a crushing weight for our families, and with an investment of \$5 million dollars into a debt-relief fund, we can ensure that our families continue to have the supportive services they need.

With 2020 behind us, but with much work still ahead of us, we respectfully submit the attached budget for Year 1 allocation from the American Rescue Plan Act funding. Our budget reflects the needs voiced by our community and we look forward to further serving those needs in Year 2. As we wait to learn more about federal allocations for infrastructure and childcare, we submit this budget for Year 1 with a goal of not just getting back to where we were before the pandemic, but by lifting up our neighbors and allowing them to get ahead. By investing in our neighbors, our youth, and our families, we can move forward together and begin to restore, repair, and rebuild our community.
