MOTION

WE MOVE that the administration provide a report on options for enhancing on-street parking assets to increase parking availability in the Oakley neighborhood business district. The report should include the feasibility of angled parking on some streets in the neighborhood business district to maximize parking options for customers traveling to Oakley to support destination retail and restaurant establishments.

Statement

The recently approved parking overlay in the Oakley business district removed barriers and will allow small businesses to thrive. Oakley is a dense neighborhood that encourages residents to walk or bike to the business district. Maximizing the on-street assets will help support the retail and restaurant establishments that attract customers from other neighborhoods and help relieve parking demand.
