Preventing Evictions through Programmatic Enhancement, Coordinating
MOTION

Cincinnati families are facing unprecedented financial challenges, and the fear of eviction continues to loom for tens of thousands of our children and families. We recognize that our nonprofit partners have, and will continue to receive, significant rental assistance support. But the process of getting these resources to families quickly, and before they end up in eviction court, has been a challenge.

As such, **WE MOVE** that the Administration pursue a request for information (RFI) to determine who can build a shared data system to enhance eviction prevention programmatic performance and coordination. Such a system would allow providers to more effectively and efficiently allocate relief and prevention services, keeping more and more of our children and families in stable housing.

We ask that the RFI inquire into: 1. Which companies or providers could create such a data system, 2. How much it would cost the city to support the creation of one, 3. How quickly we could build the platform, and 4. How best to get our eviction prevention support providers onto such a system.
