Western Hills Viaduct Project Status and Update

- Work Complete to Date
- What has Changed?
- Project Impacts
- Plan Moving Forward

WESTERN HILLS
VIADUCT
REPLACEMENT PROJECT

CINCINNATI, OH

Work Completed to Date

- Property acquisition
- Building demolition
- Utility relocation

Project Impacts

- Reduced travel way to three lanes each way.
- Consolidated to a single multi-use path on the south side.

Project Impacts

- The economic reality has influenced the Funding Plan.
- The funding plan is now split into pieces.

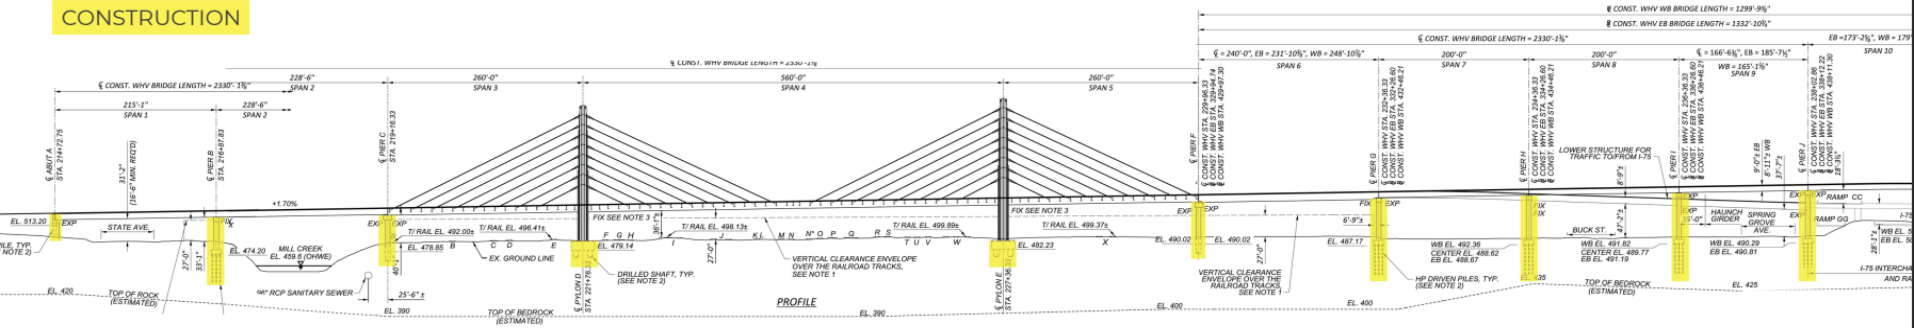

What is the plan moving forward?

- The project is set up in three phases.
 - Phase 1: Early Work Package
 - Phase 2: Major Bridge Construction
 - Phase 3: Demolition of Old Bridge

Phase 1

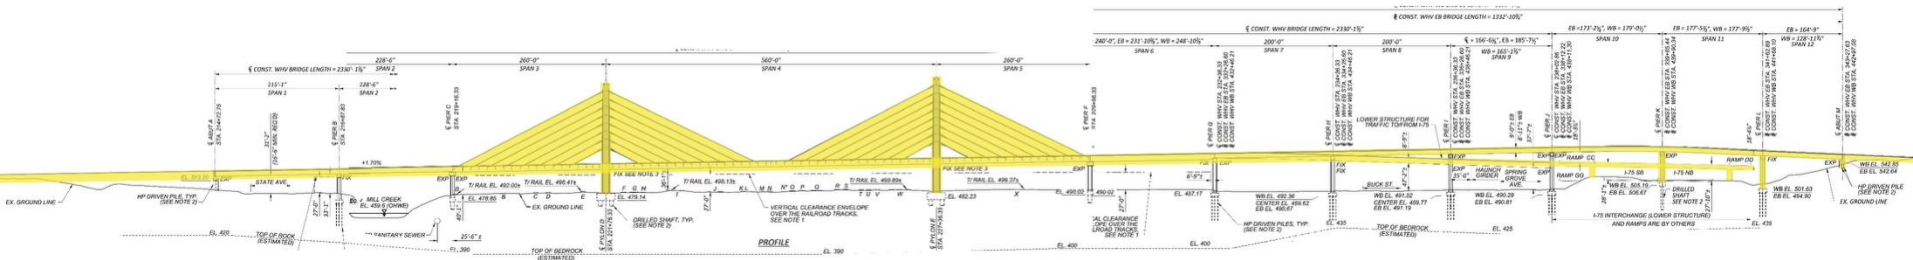

CONSTRUCTION

CONSTRUCTION WORK PACKAGE

- Construct foundations and footings for pylons
- Construct foundations and entire substructure for piers
- Relocate railroad track
- Construct access trestles

2026 to 2028

- Construct pylons and bridge superstructure
- Construct roadway and shared use path connections
- Construct interchange with I-75
- Open bridge to traffic

2028 to 2031

Phase 3

2031 to 2032
