Betsy Sundermann
Cincinnati City Councilmember

August 4, 2021

MOTION

WE MOVE that City Council make no law restricting access to public or private establishments based on the requirement of "vaccine passports" or other proof of vaccination against COVID-19.

Betsy Sundermann

STATEMENT

New York City government will soon require citizens to show proof of vaccination against COVID-19 to gain access to many indoor public or private venues.

No government should mandate the disclosure of private medical information in violation of the personal decisions of individuals and business owners.

Private businesses may choose for themselves whether to impose proof of vaccination on customers or employees.
