**MOTION**, dated 9/9/2021, submitted by Councilmember Landsman, Establishing Performance Measurement Goals for the Distribution of Eviction Prevention Funding. **WE MOVE** that the Administration work with the Community Action Agency (CAA) and other relevant partners to immediately establish performance measurement goals for the distribution of the eviction prevention emergency funding. We further move that these results-based performance measurement goals are reported to Council - along with any potential areas of support (e.g. Additional staffing or enhanced communication) - so as to allow us to act more aggressively and purposefully to ensure money is getting to people faster. (STATEMENT ATTACHED)
