Title:	MOTION, submitted by Councilmembers Jeffreys and Cramerding, WE MOVE, that the Administration report back to Council within ninety (90) days on the cost and feasibility of design alternatives that prevent drivers from using a shared, bi-directional, center turn lane as a passing lane. Specifically, the Administration should take into consideration improvements that include, but are not limited to, implementing rumble strips in the center turn lane, using reflective pylons or concrete to create "islands" in portions of the turn lane, or paving the center turn lane with alternative materials like cobble stone.
